FINISH OPTIONS

We create our Brush Stroke finish by hand.

First, choose a base color from the brush stroke palette.

We apply the base color, glaze the color, then handcraft a subtle pattern that mimics wood graining. Each cabinet in your design will have slight variations. This variation is what makes this finish so unique, and your kitchen anything but cookie cutter. Rest assured, this is a durable and long lasting color that is finished with an industrial topcoat.

Maple brush stroke

Silver Fox *Brush Stroke* | Mountain Haze *Brush Stroke* | Linen *Brush Stroke* | Woodgate *Brush Stroke* | Meadowood *Brush Stroke* | Mystic Grey *Brush Stroke*

HDF brush stroke

Silver Fox *Brush Stroke* | Mountain Haze *Brush Stroke* | Linen *Brush Stroke* | Woodgate *Brush Stroke* | Meadowood *Brush Stroke*

We make custom colors.

Did you find a “have-to-have-it” color? Let us know!

In addition to our extensive palette of standard colors, we can create cabinetry in a custom color. More than 10,000 colors are available in our custom library. And if it’s not in the library, we are confident we can take your desired hue and create cabinetry in that color. All we need is a paint swatch, paint name or paint code. Talk to your Vista Cabinetry dealer about cabinetry in a custom color. We want your kitchen and bath to be exactly what you want.

CABINETRY CONSTRUCTION DETAILS

Why choose frameless?

As you page through this Door Style Guide, you’ll see that we offer all the door styles, material and cabinet colors you need to create a beautiful kitchen and bath that reflects your style and personality. Did you also know, when you choose Vista Cabinetry, you are choosing a cabinet style (called full access frameless) that has more usable space? Compared to traditional framed cabinetry, frameless cabinetry has 15% more storage space.

You can rest assured that your kitchen and bath will be as functional as they are beautiful. Compared to framed cabinetry, frameless cabinetry offers:

- Wider drawers, giving you more room for your kitchen gadgets and beauty products.
- Easier access, because on cabinets up to 36" wide, no center stile is necessary.
- Easier cleaning, because the cabinets have fewer inside corners.
